

Overview – The Grünenthal Group

Grünenthal is a global leader in pain management and related diseases. As a science-based, fully integrated pharmaceutical company, we have a long track record of bringing innovative treatments and state-of-the-art technologies to patients worldwide. Our purpose is to change lives for the better – and innovation is our passion. We are focusing all our activities and efforts on working towards our vision of a World Free of Pain.

Grünenthal is headquartered in Aachen, Germany, and has affiliates in 27 countries across Europe, Latin America, and the U.S. Our products are available in approx. 100 countries.

Research and Development (R&D)

As a science-driven company, we focus on developing novel non-opioid treatments for pain therapy. We develop promising candidates through proof of concept and beyond, and take a world-leading role in creating pain treatments that address unmet medical needs.

Therapeutic area strategy

We focus on four key indications that are characterised by a high unmet medical need. Substantial in-house research including target identification and validation linked to disease understanding. Projects include all phases from research up to clinical development are potential interest:

- Peripheral neuropathic pain
- Chronic lower back pain
- Osteoarthritis
- Chronic post-surgical pain

Further indications of interest

Alongside our four key indications, we are seeking to identify and establish collaborative partnerships for projects undergoing clinical development in:

- Peri-surgical pain
- Migraine
- Fibromyalgia
- Complex regional pain syndrome (CRPS)
